26.7.12 (18) 8. The recommendation of the Senior Surgeon is to depute Dr E. S. Krishnaswami Iyer to England the Continent for post. Graduate Course for a Couple of years, presumably on full pay. There seems to be no provision in M S R for deputation beyond to Europe + the deputation contemplated by the Senior Regulation is one of special duty. It is a question for consideration how far an officer can be deputed to Europe, for purposes of study only. Under the British Services Regulations, an officer on deputation gets only 2/3rd of his allowance. Dr. M. Srinivasa Rao was deputed to Europe under Govt Order of 21st Sep 1908 + he was given deputation allowance calculated

9. In the case of Mr Mascarenhas Govt granted him Study leave for 9 months (in continuation of his other leave) on full pay. For the purpose of which Dr Krishnaswami Iyer wants to go to England it is for Study and perhaps Study leave may be more appropriate than to put him on deputation. If the Study leave is to be granted, it is for Govt to decide the allowances which may be sanctioned to him.

17. The Senior Surgeon very strongly recommends for the favourable consideration of Government, the request of Dr. E.S. Krishnaswami Iyer, District Medical Officer, Mysore, that he may be deputed to England and the Continent of Europe to prosecute Post Graduate Studies in Medicine, Surgery and Public Health. The deputation is to be for 18 months or two years, and the course of studies to be pursued by him is fully explained in his application addressed to the Senior Surgeon. Dr. Krishnaswami Iyer asks that during such deputation he may be allowed his present emoluments, viz. his pay and allowances, in addition to tuition fees and passage money to and fro.

Paper under disposal

2. Dr. Krishnaswami Iyer is at present in receipt of a pay of Rs.500 with a house rent of Rs.40 and a Jail allowance of Rs.100, or Rs.640 per mensem in all. He is about 49 years old and has put in 24 years service.

Pages 3 & 4 of Notes

3. The office notes drew attention to the "Study leave" sanctioned to Mr. Mascaranhas who is now prosecuting

7

prosecuting his studies in England. Upon this, the

Page 5 of notes

Second Councillor has recorded his opinion to the effect that Dr. Krishnaswami Iyer's case may be similarly dealt with.

4. It may be noted that the Mysore Service Regulations do not contemplate the grant of study leave. The conditions under which study leave is granted in British India to officers of the Indian Medical Service are explained at pages 2 and 3 of the office notes in file No. 91 of 1911 put up herewith. The order relating to the grant of study leave to Mr. Mascarenhas is also contained in the same file. As an encouragement to officers to go to Europe for purposes of study Mr. Mascarenhas was granted study leave on full pay, viz. Rs.120 per mensem, for 9 months in continuation of combined leave for six months (3 months privilege leave combined with 3 months leave on private affairs). Mr. Mascarenhas has recently applied for an extension of study leave on these terms for one year. The application is under consideration; and it may here be remarked that as 12 months is the maximum period for study leave in British India, and as Mr. Mascarenhas has already had 9 months out of this, the extension, if granted, would have to be called by some other name than study leave.

5. In the case of Dr. Srinivasa Row's deputation to Europe in 1908, he was allowed -

(i) a deputation allowance of two-thirds of his salary;

(ii) First class fare from Bangalore to Bombay and first class passage from Bombay to London, with a similar charge for the return journey; and

(iii) Fees and books.

6. It seems to me that Dr. Srinivasa Row's case is more apposite, and that the concessions allowed to him may be granted to Dr. Krishnaswami Iyer also.

7. I submit the matter for orders.

8. Dr. Krishnaswami Iyer has also asked for the grant of a scholarship of £200 per annum, at the same time, to his son for studying Electrical Engineering in England. He had intended to send this son to England for this purpose and could finance him if Dr. Krishnaswami Iyer remained here. This would not be possible if Dr. Krishnaswami Iyer himself went to England also though if father and son went to England together, the former could supervise and direct the education of the latter on right lines. The application is being dealt with separately in consultation with the P.W.D.

Subject.

Prayer of Dr. T.S.Krishnaswami Iyer, District Medical Officer, Mysore, for his deputation to England and the Continent of Europe to prosecute Post Graduate studies in Medicine, Surgery and Public Health, and for a scholarship to his son to study Electrical Engineering in England.

Order.

The Palace, Mysore,
9th September 1912.

My dear Sir,

I am directed to return File No. 507 dated 10-8-12 and to say that His Highness the Maharaja approves of the deputation of Dr. E. S. Krishnaswami Iyer to England.

The deputation may be for 18 months in the first instance and may be extended later on, if necessary, to two years.

As regards pay and allowances Dr. E. S. Krishnaswami Iyer may be allowed the full pay of his rank i.e., Rs. 500/- a month in addition to tuition fees and passage money to and from England.

His Highness does not expect Dr. Krishnaswami Iyer at his age to pass a large number of examinations but there is one examination which it would be most useful for him to pass:- viz the Diploma of Tropical Medicine and Hygiene. The London Tropical school of medicine gives courses for the purpose and it is understood that each course lasts three months and the examination is held 4 times a year. A letter to the India Office of course would ensure his getting full particulars and advice.

Having done this His Highness thinks he might be asked to study the subject of Tuberculosis treatment — both the matter of Sanatorium treatment and that by Tuberculin Dispensaries, the latter, in his opinion, being the more important as it is more practical from the point of view of the State. He may then attend for three months, or more if necessary, the dispensary which was started and run by Dr. Camac Wilkinson in Kennington Road, London and after he has got all the details he can of the system as it is worked there, he should go to some town where the system is worked Municipally-Portsmouth for instance. Dr. Camac Wilkinson introduced the system in England.

Then he might go to some sanatorium and study that side of the campaign.

PRIVATE SECRETARY MYSORE

It may be necessary for him to study further bacteriology, he gets some in the course for the D.T.M.,but probably not enough and he ought to come out with sufficient knowledge to enable him to work a laboratory for making the Tuberculin and to advise as to the best method of carrying out the Dispensary treatment in the State. There are places in Mysore where Tuberculosis is very ripe, the City of Mysore itself seems to be very bad, many lives could be saved and the spread of the disease checked by a well planned campaign which is not nearly so expensive as the sanatorium method.

While doing these courses he would probably have plenty of time for looking round general and special hospitals.

With the above remarks to guide him His Highness trusts that Dr. Krishnaswami Iyer will make good use of his time in England and come back to us with greatly improved knowledge and experience to continue his useful service to the State.

Yours sincerely,

T.Ananda Rao, Esq., C.I.E.,

Sir,

In forwarding copy of Dr. E.S.Krishnasawmy Iyer's letter No.16 dated 11th July 1912, which fully details the circumstances under which he seeks deputation to England and the Continent of Europe, I have the honor to very strongly recommend his application for the very favourable consideration of the Government.

2. I am sanguine that a couple of years' post graduate course in England and on the Continent, will enable such a capable officer like Dr. Krishnasawmy Iyer to render very great service to the State.

SUBJECT.

Recommending the deputation of Dr. E. S. Krishnasawmy for to England and the Continent of Europe for post graduate Course.

Enc. to med file 22-12-SL'1. 2

Letter No.16 dated 11th July 1912 from Dr. Krishnasawmy Iyer, District Medical Officer, Mysore, to the Senior Surgeon Mysore Governmwnt.

I have the honor to represent that I am now desirous of going to England and the Continent to prosecute Post-graduate studies in Medicine, Surgery & Public Health.

I am now domestically in a position to proceed outside India for 18 months or two years.

Rapid advances are being made in the different branches of our profession, and a study of these advances on the spot is highly desirable.

Fevers, Malarial & others, Tubercular diseases in their multifarious forms are increasing the sources of heavy mortality and heavier inefficiency in the general population of the Province.

I am hopeful that I will be of greater service to the State if I were deputed to go to Europe and devote my time and energies to Post-graduate studies in all branches and to the study of Malaria and Tubercular diseases in particular.

To enable me to go to England and the Continent, I would require emoluments equal to my pay and allowances here, in addition to passage money to and fro and tuition fees.

At the same time, I beg to bring to your kind notice that I had intended to send my son to England for studying Electrical Engineering. I could manage with some difficulty to finance him if I remained here. But my going to England on my present salary means additional expense and this will prevent me from carrying out my idea with regard to my son.

Owing to his advancing age, his deputation to England cannot be put off any longer, and it will be a great convenience to both of us if we could go together, as my stay in England while he is there would distinctly tend to a better control of his work and study there.

I am, therefore, obliged to request that the Government

Government may be graciously pleased to award a scholarship of £.200 per annum to enable him to undertake and complete his studies in Electrical Engineering. He will, of course, abide by any conditions which the Government may deem fit to prescribe.

In considering this humble application of mine, I beg that regard may be had to my 24 years of service, more than 8 years of which were of a personal nature, to the circumstance that I have had no promotion these nine or ten years, to the placing of officers who entered service long after me & on lower pay, much above me in the line of Specialists and lastly to the general character of my work including the six years' specially arduous duties in Kolar Gold Fields.
